

PBuild Investor Pitch Deck

Slide 1 - Cover Page

PBuild

Building the Future Through Technology

Custom Software • Artificial Intelligence • Automation • Digital Transformation

Founder & CEO

Leonilo P. Lagman Jr.

Tagline:

"Transforming Ideas into Digital Reality"

Slide 2 - The Problem

Businesses today face increasing operational challenges:

- Manual and repetitive processes
- Inefficient workforce management
- Lack of digital transformation
- Fragmented systems and databases
- Poor utilization of data
- High operational costs
- Difficulty adapting to emerging technologies

Many businesses understand the importance of technology but lack the resources, expertise, or guidance necessary to implement modern solutions effectively.

As technology advances rapidly, organizations that fail to adapt risk becoming less competitive in their industries.

Slide 3 - Our Solution

PBuild provides end-to-end technology solutions designed to modernize business operations.

Our services include:

- Website Development
- Application Development
- Software Development
- Mobile Development
- Process Automation
- Artificial Intelligence Integration
- Cyber Security Solutions
- Information Security Services
- Network Management
- Digital Transformation Consulting

Our objective is simple:

Leverage technology to simplify complex business problems.

We transform ideas into scalable systems that increase efficiency, productivity, and profitability.

Slide 4 - Market Opportunity

The digital transformation market continues to expand as organizations adopt technology-driven solutions.

Target Customers:

- Small and Medium Enterprises (SMEs)
- Startups
- Warehouses
- Office Facilities
- Logistics Companies
- Retail Businesses
- Service Providers
- Government Agencies
- Educational Institutions

Market Trends:

- Increased demand for automation
- Growing adoption of artificial intelligence
- Rising cybersecurity concerns
- Expansion of cloud computing
- Increased digital presence requirements

This creates significant opportunities for companies capable of delivering modern technology solutions.

Slide 5 - Business Model

Revenue Streams

1. Custom Software Development
 - Client projects
 - Enterprise systems
 - Web and mobile applications
2. Technology Consulting
 - Digital transformation planning
 - Systems architecture
 - Technology assessments
3. Maintenance & Support Contracts
 - Monthly recurring revenue
 - System updates
 - Technical support
4. Future SaaS Products
 - Subscription-based software
 - Industry-specific platforms
 - Scalable recurring income

Growth Strategy

Service Revenue → Build Portfolio → Acquire Clients → Develop Proprietary Products → Scale

Slide 6 - Competitive Advantage

Why PBuild?

Technical Expertise

Strong background in:

- Software Engineering
- Artificial Intelligence
- Machine Learning
- Systems Development
- Network Infrastructure

Practical Solutions

We focus on solving real-world business problems rather than implementing technology for the sake of technology.

Flexible Development

Customized systems tailored to client needs.

Future-Oriented

Our long-term strategy combines service-based revenue with scalable software products.

Slide 7 - Leadership Team

Founder & CEO

Leonilo P. Lagman Jr.

Background

- Computer Science Graduate
- Software Engineer
- Government Technology Experience
- Full Stack Development Knowledge
- Experience in Systems Development
- Experience in Technical Support and Operations

Core Strengths

- Rapid problem-solving
- Software architecture
- Business process analysis
- Technology implementation

Supporting Team

A growing team of developers and collaborators committed to building innovative technology solutions.

Slide 8 - Roadmap

Phase 1
Foundation

- Establish company identity
- Build company website
- Develop portfolio projects
- Acquire initial clients

Phase 2
Growth

- Expand client base
- Build recurring revenue
- Hire specialized talent
- Strengthen brand recognition

Phase 3
Product Development

- Launch SaaS platforms
- Develop proprietary software
- Implement AI-powered solutions

Phase 4
Scale

- National market expansion
- Strategic partnerships
- Enterprise contracts
- Regional growth opportunities

Slide 9 - Financial Projection

Year 1

Primary Focus:
Service Revenue

Goals:

- Initial client acquisition
- Portfolio development
- Brand establishment

Projected Revenue Sources:

- Software development projects
- Consulting engagements
- Support contracts

Year 2

Primary Focus:

Expansion

Goals:

- Increased project volume
- Team growth
- Introduction of recurring revenue models

Year 3

Primary Focus:

Scalable Products

Goals:

- SaaS product launch
- Subscription revenue
- Market expansion

Long-Term Objective

Transition from a service-focused company into a technology company with proprietary software products.

Slide 10 - Investment Opportunity

Investment Objective

Accelerate company growth and market penetration.

Funding Allocation

- Product Development
- Marketing & Sales
- Infrastructure
- Talent Acquisition
- Business Operations

Expected Outcomes

- Faster client acquisition
- Stronger market presence
- Accelerated product development
- Increased recurring revenue opportunities

Vision

To become a recognized technology company that develops impactful solutions and contributes to the advancement of the digital economy.

Thank You

PBuild
